Introduction
The Drug Free Schools and Communities Act Amendments of 1989 requires an institution of higher education to certify to the U.S. Department of Education, that it has adopted and implemented a Drug and Alcohol Abuse Prevention Program (DAAPP) to prevent the unlawful possession, use, or distribution of illicit drugs and alcohol by all students and employees to be eligible for federal financial assistance of any kind.

White Earth Tribal and Community College (WETCC) rules and regulations prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees in buildings, facilities, grounds, or other property owned or controlled by WETCC or as part of college activities. In addition, any person who violates state or federal drug and alcohol laws will be subject to the appropriate penalties.

General Philosophy Statement
WETCC recognizes that the misuse of alcohol and other drugs is a serious problem in our society and community. WETCC is committed to protecting the safety, health, and well-being of all employees, students, clients, guests, and other individuals in our workplace. Alcohol abuse and illegal drug use significant threats to the safety and security of WETCC and the communities it serves. We take our responsibility to maintain a drug-free workplace seriously. We recognize that drug dependency may be an illness. However, consistent with this understanding, we are obligated to ensure that employees and students perform efficiently, safely, and in an optimal academic environment. Therefore, the college is committed to creating and enforcing clear campus policies regarding the use of alcohol and other drugs.

Annual Notification
This document is an annual notice that will be sent to prospective, new, and returning students and employees. Updates may be necessary due to the changes in tribal, state, and federal laws or White Earth Tribal and Community College policy. For the most recent publication of this document, please see the White Earth Tribal and Community College website: www.wetcc.edu > “Quick Links”.

WETCC Alcoholic Beverages or Controlled Substances Policy
Reference: Policy 440.07 Alcohol Beverages or Controlled Substances Policy
It is the policy of White Earth Tribal and Community College (WETCC) that the use, sale, possession, transfer, manufacture, or distribution of alcohol or a controlled substance, or paraphernalia commonly associated with controlled substances is forbidden on the WETCC campus. Any look-like substances are prohibited. This policy does not prohibit the use of prescription medication used by the authorized individual following the prescribed method.

The Alcohol Beverages or Controlled Substances Policy Includes:
- Policy Background and Purpose
- Definitions
- Responsibility
- Policy
Standards of Conduct Employee

PERSONAL CODE OF CONDUCT
Reference: Policy 300.10 Personal Code of Conduct Policy

WETCC's Personal Code of Conduct standards were developed to ensure all employees can work as a professional team with consideration for the rights and interests of others.

The Personal Code of Conduct Policy includes:
- Policy Background and Purpose
- Definitions
- Responsibility
- Policy

This list of personal conduct standards is not all-inclusive but provides employees with examples of unacceptable behavior. Managers may determine that certain behaviors not described in the WETCC Personal Code of Conduct Standards warrant disciplinary action including termination of employment without notice.

WETCC upholds the standards of the Drug Free Workplace Act, and any violation may result in disciplinary action.

The Drug Free Workplace Act:

Employee Sanctions
Reference: Policy 300.29 Corrective Action Policy

Unfortunately, corrective action may be necessary whenever an employee is not meeting attainable expectations.

Corrective Action Policy Includes:
- Policy Background and Purposes
- Definitions
- Responsibility
- Policy
- Subpart A. Actions includes:
  - Supervisory options when considering disciplinary actions include:
  - Informal discussion and problem-solving between the supervisor and the employee,
or
  • A Verbal Warning
  • A Written Reprimand
  • A Suspension Without Pay
  • Dismissal of Employment
• Subpart B. Review
• Subpart C. Appeals

CORRECTIVE ACTION
Reference: WETCC Employee Handbook (page 24)

When an employee’s behavior or conduct does not meet expectations or violates WETCC policy disciplinary action may become necessary. The goal, whenever possible, is to improve performance and resolve problems as opposed to issuing punishment.

The degree of discipline will be related to the seriousness of the offense, the employee’s employment record, and established WETCC practices. There is not a sequence of steps to take for disciplinary action, any action will be decided on an individual basis.

Student

STUDENT CODE OF CONDUCT
Reference: Policy 700.05 Student Code of Conduct Policy

The WETCC Student Code of Conduct applies to conduct that occurs on WETCC premises, at WETCC-sponsored activities, and off-campus conduct that adversely affects the WETCC community or the pursuit of its objectives. Each student is responsible for his or her conduct from the time of application for admission through the awarding of the degree, even though the conduct may occur before classes begin or after classes end and during the academic year and periods between terms of enrollment.

The Student Code of Conduct Policy includes:

• Behavior subject to WETCC Discipline
  • Infringement of the rights of others
  • Abuse or misuse of substances
  • Interference with College business, academic processes, or student activities
  • Off-campus behavior
  • Violation of WETCC Computer and Network Usage Policies
  • Academic Honesty
  • Participation in an investigation

• WETCC Disciplinary Procedures
  • Report of a violation
  • Investigation process
  • Appeal Rights
• Sanctions
  o Penalties that can be imposed for infractions include reprimand, probation, suspension, or expulsion

• Non-Responsiveness of a student who does not respond to the opportunity to participate in the disciplinary process
• Student Appeals – the right and process to file an appeal within ten working days of a decision
• Maintenance of Conduct Records

Student Sanctions
Reference: Policy 700.05 Student Code of Conduct Policy

3.1 Definition:
• 3.1.1 Sanctions are penalties that may be imposed by the college upon an individual who has been found to have violated the Code of Student Conduct.
• 3.2 Sanctions that may be imposed by the college and assigned by the student services dean established by Section 2. of this Code are:
  o 3.2.1 Reprimand. Reprimand may be delivered verbally or in writing. If the reprimand is in writing, a copy will be retained on file in the Student Services Dean’s Office.
  o 3.2.2 Conduct probation. Conduct probation indicates that further violation may result in suspension. Conduct probation may not be imposed for more than one year.
  o 3.2.3 Suspension from participation in college-sponsored organizations, events, and activities.
  o 3.2.4 College Suspension. A student who is suspended may not enroll in or attend classes for a determined length of time.
  o 3.2.5 College Expulsion. A student who is expelled from the college is permanently barred from the college and premises.
  o 3.2.6 Sanctions including but not limited to counseling, evaluation, restitution, community service, and compensation for theft or damage to person or property may be imposed along with an official college sanction.

Legal Sanctions Under Federal and State Law
State and federal laws provide for a variety of legal sanctions for the unlawful possession of illicit drugs and alcohol. These sanctions include incarceration and monetary fines.

Federal Sanctions
Controlled substance convictions under federal laws carry penalties ranging from up to one year of imprisonment and a minimum fine of $1,000 for simple possession to up to life imprisonment and a minimum fine of $2,000,000 for an individual engaging in a continuing criminal enterprise. Federal controlled substance convictions can lead to forfeiture of both real and personal property; the denial of federal benefits, such as grants and student loans; and the denial of
federally provided or supported professional and commercial licensures. The seriousness of the offense and the penalty imposed depends on the type and amount of the drugs involved.

Federal trafficking penalties: https://www.federalcharges.com/what-is-the-sentence-for-trafficking-drugs/

State of Minnesota Laws and Sanctions
Controlled substance convictions under Minnesota laws carry penalties including a prison sentence of not more than 30 years and a maximum fine of $1,000,000 for sales and possession crimes. Subsequent controlled substance convictions result in commitment to the commissioner of corrections for four to 40 years and a maximum fine of $1,000,000.

Minnesota controlled substances laws and sanctions: https://www.revisor.mn.gov/statutes/cite/152

Misuse of Alcohol
The misuse of alcohol can result in criminal penalties under Minnesota laws. Anyone under 21 years of age is guilty of a misdemeanor and subject to a minimum fine of $100 if convicted of purchase, possession, or consumption of alcohol or misrepresentation of age to purchase alcohol. Anyone who provides alcohol to individuals under 21 years of age is also subject to criminal sanctions.

Driving Under the Influence
While under the influence of alcohol it is illegal to drive or operate an ATV, boat, or snowmobile. Minnesota state law imposes stiff penalties on individuals who are convicted of driving under the influence of alcohol, a controlled substance, or a hazardous substance. For example, a felony conviction of first-degree driving while impaired carries penalties of imprisonment for not more than seven years and a minimum fine of $14,000. Administrative penalties for driving under the influence convictions include driver’s license suspension, revocation, cancellation, denial, or disqualification.

Minnesota law – driving while impaired, including underage drinking and driving: https://www.revisor.mn.gov/statutes/?id=169A

White Earth Nation
The White Earth Reservation Tribal Code does not address alcohol or drug offenses; however, state and federal laws apply.

Health Risks (Delta State University DAAPP, 2017)
Alcohol and drugs are toxic to the human body. Substance abuse may result in a wide array of serious health and behavioral problems and has both long and short-term effects on the body and the mind. In addition to the problem of toxicity, contaminant poisonings often occur with illegal drug use. HIV infection with intravenous drug use is a prevalent hazard.

Acute health problems may include heart attack, stroke, and sudden death, which can occur for first-time cocaine users. Long-lasting effects caused by drug and alcohol abuse can cause problems such as disruption of normal heart rhythm, high blood pressure, leaks of blood vessels in the brain, bleeding and destruction of brain cells, memory loss, infertility, impotency, immune system impairment, kidney failure, cirrhosis of the liver and pulmonary damage. Drug use during pregnancy may result in fetal damage and birth defects causing hyperactivity, neurological abnormalities, and developmental difficulties. Additional health risks can include:

<table>
<thead>
<tr>
<th>SUBSTANCES</th>
<th>POSSIBLE LONG-TERM EFFECTS (Not an inclusive list)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alcohol</td>
<td>Depression, neurological and liver damage, physical dependence, cancer, emotional changes, coma, death, impaired judgment, fetal alcohol syndrome, toxic psychosis</td>

<td>Steroids (roids, juice)</td>
<td>Heart problems, stroke, breast enlargement in men, hypertension, fertility issues, liver damage, kidney failure, masculinization of women, anger and aggression, impotence, paranoia, delusions, depression</td>
</tr>
</tbody>
</table>

For a detailed list of health risks derived from illegal drug use, please visit the National Institute on Drug Abuse at https://www.drugabuse.gov/drugs-abuse/commonly-abused-drugs-charts

Additional Health Risk of Alcohol Abuse

Alcohol Abuse
Alcohol consumption causes impairments including changes in behavior and normal body function. Even low doses significantly impair judgment, coordination and mental function, thus increasing the risks of accidents and injuries. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person’s ability to learn and remember information. Extremely high doses taken acutely can cause respiratory depression, cancers, stroke, liver disease, fetal damage (in pregnant women), and death. Statistics show that alcohol use is involved in many violent behaviors on college campuses, including acquaintance rape, vandalism, and fights. Consequences of alcohol abuse include DUI arrests and serious or fatal car crashes. Continued abuse may lead to dependency, which can cause permanent damage to vital organs and deterioration of a healthy lifestyle. Alcoholism or alcohol dependence is a diagnosable disease characterized by a strong craving for alcohol or continued use despite harm or personal injury, or both. Alcohol abuse can lead to alcoholism and is a pattern of drinking that results in harm to one's health, interpersonal relationships, or ability to work.

Drug/Alcohol Counseling and Rehabilitation Programs
White Earth substance abuse programs are available on and near the reservation offering drug abuse prevention, education, intervention, and treatment. Programming varies and may be offered to White Earth tribal enrollees, descendants, family members, and non-native community members, depending on the program. More information can be found on their website: www.whiteearth.com under Divisions > Behavioral Health > Substance Abuse or by contacting: WESA@whiteearth-nsn.gov

Biennial Review - Effectiveness and Implementation

The WETCC DAAPP is designed to prevent the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees. The program maintains compliance with federal standards by providing notice of the WETCC standards of conduct; description of sanctions for violating federal, state, and law, and WETCC policy; informing of the health risks associated with alcohol and drug use; offering education, prevention, and referral services to students and staff; monitoring WETCC's consistency of enforcement of sanctions; and performing a biennial review of the program's effectiveness. The student services dean (SSD), in collaboration with the Human Resources Technician (HRT) and the cultural coordinator, ensures the implementation of the WETCC DAAPP and conducts a biennial review of the program to determine effectiveness, implement necessary changes, and ensure that disciplinary sanctions are enforced.

The Student Services, Human Resources, and Cultural departments implement activities throughout the year. WETCC activities meet compliance standards and advance the mission of the college by integrating Anishinaabe cultural ceremonies and teachings into the prevention program. WETCC offers smudge (a cleansing smoke) and tobacco for students daily. Ceremonies such as the water ceremony and drum feast are conducted throughout the year, where there is an offering of food and tobacco to the spirits. Ceremonies offer opportunities for healing by helping students learn traditional Anishinaabe ways to deal with the underlying issues that can lead to addiction. These activities are available to students, staff, and community members. The WETCC DAAPP, policies, and sanctions are available at wetcc.edu and in the student and employee handbooks.

WETCC will review and assess the DAAPP yearly. The student services dean or academic dean steers this effort and works with the other departments to identify the objectives, activities, data collection, and assessment of WETCC DAAPP efforts.

All biennial review documentation will be in the Student Services Office. A copy of the DAAPP plan, assessment plan, and results of the biennial review will be stored on the WETCC One Drive and made available upon request to the public and the Secretary of the Department of Education.

Assessment areas include the effectiveness of documented mandatory alcohol/drug treatment referrals for students (monitored by SSD) and employees (monitored by HRT), documented cases of disciplinary sanctions imposed on students (monitored by SSD) and employees (monitored by HRT), and drug testing results for any student (monitored by SSD) or employee.
(monitored by HRT) that were conducted by a rehabilitation program or injury related testing. This information will maintain appropriate anonymity for reporting purposes.

Enforcement of Disciplinary Sanctions
The SSD and HRT will review the sanctions imposed on students and employees to ensure that the disciplinary sanctions are consistently enforced.
**Appendix A – MN Drug Offender Grid**

### 4.C. Drug Offender Grid

Presumptive sentence lengths are in months. Italicized numbers within the grid denotes range within which a court may sentence without the sentence being deemed a departure. Offenders with stayed felony sentences may be subjected to local confinement.
