

Table of Plant Types

AMARANTH, <i>Amaranthus</i> spp.	unguiculata	OATS / COMMON, <i>Avena sativa</i>
APPLE, <i>Malus</i> spp.	CRESS, Various Genera	OATS / HULLESS, <i>Avena sativa</i>
APRICOT, <i>Prunus armeniaca</i>	CUCUMBER, <i>Cucumis sativus</i>	OKRA, <i>Abelmoschus esculentus</i>
ARTICHOKE, <i>Cynara scolymus</i>	CURRENT, <i>Ribes</i> spp.	ONION BUNCH, <i>Allium fistulosum</i>
ASPARAGUS, <i>Asparagus officinalis</i>	EGGPLANT, <i>Solanum melongena</i> var. <i>esculentum</i>	ONION COMMON / RED-PURPLE, <i>Allium cepa</i>
BARLEY / COMMON, <i>Hordeum vulgare</i>	ENDIVE & ESCAROLE, <i>Cichorium endivia</i>	ONION COMMON/WHITE, <i>A. cepa</i>
BARLEY / HULLESS, <i>H. vulgare</i>	FAVA BEANS, <i>Vicia faba</i>	ONION COMMON / YELLOW-BROWN, <i>A. cepa</i>
BEAN / BUSH / DRY, <i>Phaseolus vulgaris</i>	FENNEL, <i>Foeniculum vulgare</i>	ONION MULT / ROOT
BEAN / BUSH / SNAP, <i>P. vulgaris</i>	FLAX, <i>Linum</i> spp.	ONION MULT / TOPSET
BEAN / BUSH / WAX, <i>P. vulgaris</i>	GARLIC, <i>Allium sativum</i>	ONION Other Species
BEAN / POLE / DRY, <i>P. vulgaris</i>	GOOSEBERRY, <i>Ribes</i> spp.	PARSLEY, <i>Petroselinum crispum</i>
BEAN / POLE / SNAP, <i>P. vulgaris</i>	GOURD, <i>Lagenaria siceraria</i> and <i>Benincasa hispida</i> only	PARSNIP, <i>Pastinaca sativa</i>
BEAN / POLE / WAX, <i>P. vulgaris</i>	GRAPE, <i>Vitis</i> spp.	PEA / GARDEN, <i>Pisum sativum</i> var. <i>sativum</i>
BEET / GARDEN, <i>Beta vulgaris</i>	GROUND CHERRY, <i>Physalis</i> spp.	PEA / POD, <i>Pisum sativum</i> var. <i>sativum</i>
BEET / SUGAR, <i>Beta vulgaris</i>	HORSERADISH, <i>Armoracia rusticana</i>	PEA / SOUP, <i>Pisum sativum</i> var. <i>sativum</i>
BROCCOLI, <i>Brassica oleracea</i>	JERUSALEM ARTICHOKE, <i>Helianthus tuberosus</i>	PEACH, <i>Prunus persica</i>
BROCCOLI RAAB, <i>Brassica rapa</i>	KALE, <i>Brassica oleracea</i>	PEANUT, <i>Arachis hypogaea</i>
BRUSSELS SPROUTS, <i>Brassica oleracea</i>	KOHLRABI, <i>Brassica oleracea</i>	PEAR, <i>Pyrus communis</i>
CABBAGE / GREEN, <i>Brassica oleracea</i>	LEEK, <i>Allium ampeloprasum</i>	PEPPER / HOT, <i>Capsicum annuum</i>
CABBAGE / RED, <i>B. oleracea</i>	LETTUCE / HEAD, <i>Lactuca sativa</i>	PEPPER / SWEET / BELL, <i>C. annuum</i>
CABBAGE / SAVOY, <i>B. oleracea</i>	LETTUCE / LEAF, <i>Lactuca sativa</i>	PEPPER / SWEET / NON-BELL, <i>C. annuum</i>
CARDOON, <i>Cynara cardunculus</i>	LETTUCE / ROMAINE, <i>Lactuca sativa</i>	PEPPER / OTHER SPECIES, <i>C. frutescens</i> , <i>C. baccatum</i> , <i>C. pubescens</i> and <i>C. chinense</i> .
CARROT, <i>Daucus carota</i> var. <i>sativus</i>	LIMA / BUSH, <i>Phaseolus lunatus</i>	PLUM, <i>Prunus</i> spp.
CAULIFLOWER, <i>Brassica oleracea</i>	LIMA / POLE, <i>Phaseolus lunatus</i>	POTATO, <i>Solanum tuberosum</i>
CELERIAC, <i>Apium graveolens</i> var. <i>rapaceum</i>	MELON / MUSK, <i>Cucumis melo</i>	QUINOA, <i>Chenopodium quinoa</i>
CELERY, <i>Apium graveolens</i> var. <i>dulce</i>	MELON / WINTER MELON, <i>C. melo</i>	RADISH, <i>Raphanus sativus</i>
CHERRY, <i>Prunus</i> spp.	MELON / OTHER, <i>C. melo</i>	RASPBERRY, <i>Rubus</i> spp.
CHICORY, <i>Cichorium intybus</i>	MILLET, <i>Panicum</i> spp.	RHUBARB, <i>Rheum rhabarbarum</i>
CHINESE CABBAGE, <i>Brassica rapa</i>	MISC, Miscellaneous species	RICE, <i>Oryza sativa</i>
COLLARD, <i>Brassica oleracea</i>	MISC BERRY	RUNNER BEAN, <i>Phaseolus coccineus</i>
CORN / DENT, <i>Zea mays</i>	MISC CUCURBITACEAE	RUTABAGA, <i>Brassica napus</i>
CORN / FLINT, <i>Zea mays</i>	MISC FRUIT	RYE, <i>Secale cereale</i>
CORN / FLOUR, <i>Zea mays</i>	MISC GRAIN	SALSIFY, <i>Tragopogon</i> spp.
CORN / POP, <i>Zea mays</i>	MISC LEGUMINOSAE	SCORZONERA, <i>Scorzonera hispanica</i>
CORN / SWEET, <i>Zea mays</i>	MISC SOLANACEAE	SORGHUM / BROOM, <i>Sorghum bicolor</i>
CORN / OTHER SP.	MUSTARD / GREENS, <i>Brassica juncea</i>	
CORNSALAD, <i>Valerianella locusta</i> or <i>V. eriocarpa</i>	NUTS, Indicate species	
COWPEA, <i>Vigna unguiculata</i> subsp.		

SORGHUM / GRAIN, *Sorghum bicolor*

SORGHUM / SWEET, *Sorghum bicolor*

SOYBEAN, *Glycine max*

SPINACH, *Spinacia oleracea*

SQUASH / MAXIMA, *Cucurbita maxima*

SQUASH / ARGYROSPERMA, *C. argyrosperma* - formerly *C. mixta*

SQUASH / MOSCHATA, *C. moschata*

SQUASH / PEPO, *C. pepo*

SQUASH / UNKNOWN

SQUASH / OTHER SPECIES

STRAWBERRY

SUNFLOWER, *Helianthus annuus* & *H. spp.*

SWISS CHARD, *Beta vulgaris*

SWEET POTATO, *Ipomoea batatas*

TEPARY BEANS, *Phaseolus acutifolius*

TOMATILLO, *Physalis ixocarpa*

TOMATO / ORANGE-YELLOW, *Solanum lycopersicum*

TOMATO / PINK-PURPLE, *S. lycopersicum*

TOMATO / RED, *S. lycopersicum*

TOMATO / OTHER COLORS, *S. lycopersicum*

TOMATO / OTHER SPECIES

TURNIP, *Brassica rapa*

WATERMELON, *Citrullus lanatus*

WHEAT, *Triticum aestivum*

Notes on Plant Types

BEANS: Only common (*P. vulgaris*) beans are listed in the five bean plant types. Runner beans (*P. coccineus*), Tepary (*P. acutifolius*) and Lima beans (*P. lunatus*) are listed separately. Common beans (*Phaseolus vulgaris*) include snap, dry, and wax beans and are divided into bush or pole, depending on the growth habit of the plant. Snap beans are the immature pods that are eaten as green beans. Dry or soup beans are the seeds that are left in the pods on the vine to dry before harvest. Wax beans are yellow or white podded with a waxy appearance and used as a green bean. Varieties used as both snap and dry are included in the snap bean section.

BEETS: *Beta vulgaris* Root beets only. All beets whose primary use is as tops are with Swiss Chard

ONIONS: Onion/Mult/Root are commonly known as multiplier onions or shallots. All Onion/Mult/Root are *Allium cepa* (Proliferum Group), and should be provided as bulbs unless otherwise indicated. All varieties that do not form heads with bulbils are in Onion/Mult/Root; those which do form heads should be listed as Onion/Mult/Topset. All Onion/Common should be provided as seeds unless otherwise indicated.

MELON: Varieties of *C. melo* are broken down into these categories:

- Winter Melon—Includes canary, casaba, crenshaw, and honeydew
- Melon Musk—All netted muskmelons
- Melon Other—Includes European cantaloupes (not netted), Conomon and Flexuosus types and other unusual sorts.

MISC CUCUR: Miscellaneous members of the Cucurbitaceae family, including Bitter Melon (*Momordica balsamina*), Jelly Melon and Luffa.

MISC LEGUM: Miscellaneous members of the Leguminosae family which are not *Phaseolus vulgaris*, *P. coccineus*, *P. lunatus* or *P. acutifolius*, including yard long bean, winged bean, etc.

MISC SOLAN: Miscellaneous members of the Solanaceae family, including red and orange fruited eggplant varieties (*S. integrifolium*).

PEPPER: Hot and sweet peppers are listed as *Capsicum annum*. Other *Capsicum* species are listed in Pepper / Other Species, they include *C. frutescens*, *C. baccatum*, *C. pubescens* and *C. chinense*

SQUASH: All commonly grown summer and winter squash and pumpkins belong to one of four *Cucurbita* species.

- *Cucurbita maxima* are known for lengthy vines, cold tolerance, soft stems, bright orange flesh, smooth texture, and are good for canning.
- *Cucurbita moschata* like warm, wet climates, have mottled leaves, viny foliage, flared stems, bright orange flesh that is high in carotenoids.
- *Cucurbita pepo* are known for growing well in temperate climates with spiny foliage and hard stems.
- *Cucurbita argyrosperma* are known to like hot, dry climates, have highly nutritious seeds, poor quality flesh, and are common in Latin American cooking.

List under the correct species if you know it, or as Squash/Unknown. Squash-like plants such as *C. ficifolia* and other unusual *Cucurbita* species are listed as Squash/Other Species. Other members of the Cucurbitaceae family are listed as Misc Cucurbitaceae. Squash/Argyrosperma, was formerly Squash/Mixta.

TOMATO / OTHER SPECIES—Includes currants (*Solanum pimpinellifolium*), wild, and species tomatoes other than *S. lycopersicum*
